

## Check Regularly and Before a Long Trip

**1 Fuel Supply:** Turn fuel filler cap to the left and hold on to it until possible pressure in tank has been released, then remove the cap.

**2 Tire Inflation Pressure:** Check at least every two weeks. For details see page 84.

**3 Windshield Washer System and Headlamp Cleaning System:** See page 113.

**4 Coolant Level:** See page 76.

**5 Engine Oil Level:** See page 77.

**6 Brake Fluid:** See pages 112 and 114.

**Vehicle Lighting:** Check function and cleanliness. For replacement of light bulbs, see pages 85, 86 and 87.
